ORNAMENTAL URNS | OUTDOOR DISPLAY continued

The Biotree Urn has been designed to shape a greener planet by changing our traditions from that of graves, to those of forests. Celebrating life with a living memorial in the form of a tree.

Traditional burial is not sustainable, and could cause an ever-expanding crisis globally, damaging the environment and using up vast amounts of space. The Biotree Urn is made using natural plant fibres and materials that aid in fertilizing the surrounding soil and neutralising the pH levels of cremated remains, creating a healthy environment for a tree to grow.

By selecting tree species that are harmonious to your local environment, your memorial will complement the surrounding flora footprint and create a living tribute for a loved one who now rests at its roots.

Note: Tree seeds are not supplied with the urn.

How it works

- Fill the provided biodegradable bag with cremated remains, and place it in the base of the urn on top of the filter. Securely reattach the base of the urn.
- Add 800 ml of water to the Biotree Urn and use the provided wooden stirring tool to move the expanding coco peat disk and help it fill the body of the urn.
- Plant a seed 2.5cm into the expanded coco peat disk, and add any remaining water. Give the seed time to germinate, watching the watering needs of the urn and tree.
- The Biotree Urn can remain unburied in your house for several weeks, depending on your local climate. At any time, or when the urn starts to crack, plant the Biotree Urn into the ground or a pot, leaving the top visible.
- Water the tree inside the urn as needed. The Biotree Urn and the enclosed ashes will naturally return to the earth over time as the tree grows.
- Visit www.Biotree.earth and go to the Registration tab. Use the included geotag code to mark the location that you plant your urn. An online memorial can be created at the Biotree.earth website.

CUSTOMISABLE URNS | PLAQUES & LABELS

Our customisable brass effect plaques and labels are the perfect way to personalise an urn without having to engrave the urn itself.

A meaningful message or name can be laser printed or engraved on the label or plaque (approximately 3 lines of 30 characters is the maximum advisable).

Size: 67 x 25mm.

Labels for curved urns

For affixing to an urn with a curved face, we offer a thin plastic self-adhesive material in a brushed gold with lasered black text. At just 0.1mm in thickness, the label has the appearance of a plaque but is thin enough to wrap around a slightly curved surface.

Plaques for flat surface urns

We offer brass effect or silver self-adhesive plaques for engraved messages. Please note these are only suitable for affixing to completely flat surfaces.

Plaques and labels are supplied separately and we accept no responsibility for any damage arising from erroneous applications.

CUSTOMISABLE URNS | WOODEN KEEPSAKE URN

These simple but stylish carved oak keepsake urns are a perfect way of keeping cremated remains discreetly. Perfectly sized to fit into the palm of your hand, they contain two hidden recesses within the clever design of the heart. Contents are protected beneath clear perspex screens with rubber seals which can be concealed by placing a photo above. The innovative design slides open with a unique rotating action and uses a discreet and secure magnetic closure.

Each heart comes in an attractive presentation box, complete with soft display stand and velvet pouch. Engraving is optional and available at additional cost.

ASH TUBES | BAMBOO CONSTRUCTION

The Eco Scattering™ urn is the new, environmentally friendly way to scatter the ashes of a loved one. The urn is made entirely of bamboo, a sustainable material, which makes the product completely biodegradable. Bamboo is also a very strong material, because of this the process of decay of the urn will only start after it is placed in the earth or outside.

SEALING: Removeable lid with unique closing mechanism (locking pin system) which makes it possible to scatter the contents at multiple locations.

ASH TUBES + TANGIBLE MEMORIALS = NO REGRETS

Even if you choose to scatter the ashes, you should consider whether you might wish to keep some of the ashes to create a lasting and tangible memorial. You could consider sharing some of the ashes between family members so that everyone can have a personal memento. Individuals can choose how to retain the ashes; whether they want them to be kept in a miniature keepsake urn or enclosed within the hidden chambers of beautiful ash keepsake jewellery. Some of our miniature options are detailed below.

The beautiful alternative grief ritual

Our artisan paper makers are part of the world's oldest mechanised paper mill – the birthplace of paper's industrial revolution.

However, there is nothing mechanical about the production of our seed paper. Entirely handmade using the traditional method, our seed paper belongs to a bygone era and is totally ecologically sound.

PLANTABLE SEED PAPER MEMORIAL STATIONERY

Shaw's seed paper memorial stationery offers a truly unique opportunity for bereaved families to create a stunning floral memorial to their loved one. Detachable adornments are crafted into hearts or butterflies from a handmade paper consisting of cotton fibre, British flower petals and perennial British wildflower seeds and are mounted onto a backing card.

By planting the backing card's detachable adornment, according to the instructions printed on the reverse, the seeds pressed into the adornments will grow and blossom into beautiful wildflowers, creating a perpetual tribute to a loved one.

Tokens and bookmarks are ideal for the bereaved friends and family so everyone can hold their own remembrance ceremony in their own homes and gardens and grow their own memorial to the deceased. Gift the bereaved a set of tokens as a kind gesture for them to distribute to the extended family and friends, or direct the bereaved to us to order their own personalised tokens.

These tokens are ideal for funeral professionals to give out to attendees of the funeral so that everyone can grow their own tribute in memory of the deceased. As the backing cards are personalised with your choice of wording, this thoughtful gift doubles as a subtle yet effective business card. Alternatively, you could choose to gift the token to the bereaved family only.

Further information

Stock tokens and bookmarks, which feature heart or butterfly adornments on our popular plain ivory backing cards, are available with the simple message printed at the bottom "In Memory". Personalisation is included in the price for orders over 200 units.

Bereaved families can also order this stationery direct should they wish to customise cards with the details of the deceased or personal messages.

*I'd like the memory of me to be

*I'd like to leave an afterglow of smiles when
life is done.*

*I'd like to leave an echo whispering softly

and sunny days.*

*I'd like the tears of those who grieve,
to dry before the sun;*

*Of happy memories that I leave
when life is done.*

SPECIAL NOTES

WONDERING WHAT TO DO WITH THE ASHES?

Nowadays, with burial becoming less popular, you are afforded many choices as to what to do with the cremated remains of your loved one.

There are four main options:

- Scatter in a meaningful location (browse our scattering tubes on pages 25-28)
- Bury in a meaningful location (browse our biodegradable urns on pages 29-32)
- Display in the family home (browse our ornamental urns starting on page 4)
- Share between several people (browse miniature keepsake urns on pages 21-24 or ash keepsake jewellery on page 33).

There are also many more imaginative and creative ways to pay tribute to the life of a loved one, which are not outlined here.

Whatever you decide to do, you could retain a small amount of the ashes to wear in a jewellery pendant or to fill a miniature keepsake urn; so the options outlined above are not necessarily mutually exclusive.

LARGE CAPACITY URNS

The funeral industry offers a wonderful array of cremation urns, but most are only suitable for containing capacities of cremated remains up to approximately 3.5 litres (which will hold the ashes of an average-sized adult). Shaw's Funeral Products are delighted to offer a number of styles which can contain greater capacities of cremains.

Extra large capacity urns are indicated on these pages as 'XL size' and are also featured on our website in a dedicated category "Cremation urns (extra large capacity)". Within this category, a large number of extra large capacity urn styles are available from stock for immediate dispatch, while a wider range of urns are available to special order (with a lead time of approximately 1-4 weeks).

WHAT SIZE URN TO ORDER?

The average sized adult will create about 3.5 litres of cremated remains. Most of our adult urns have a standard capacity of 3 litres or above, although some have much larger capacities.

How much ash is left after cremation?

Industry guides says that for every pound of body weight, allow one cubic inch of cremated remains. Standard size urns have approximately 200 cubic inches or 3.5 litres of internal volume and are suitable for an average adult. 1 litre is 61 cubic inches and 1 cubic inch is 0.0164 litres.

Example

1 pound = 1 cubic inch of ashes

14 stone = 196 pounds

196 cubic inches x 0.0164 litres = 3.2144 litres of ashes

The table below shows the urn capacity required for a full set of ashes for different body weights.

Body weight	Cremains created
10 stone	2.296 litres
11 stone	2.526 litres
12 stone	2.755 litres
13 stone	2.985 litres
14 stone	3.214 litres
15 stone	3.444 litres
16 stone	3.674 litres
17 stone	3.903 litres
18 stone	4.133 litres
19 stone	4.362 litres
20 stone	4.592 litres
